

Siberian PWA Creator Editor Module

PWA Creator Editor Module allows your users to create PWA themselves.

You can access a PWA Creator Editor Module by visiting: **Siberian Editor > Left Side Menu > Modules > PWA Creator**

By Default, User will see a screen like below if PWA isn't activated for a particular app.

Your app isn't activated for PWA.

If you have used PWA Activator using User-Email then user will see a screen like below.

Your app isn't activated for PWA. Click below button to activate it.

Activate PWA

You can activate PWA using PWA BackOffice Module. After PWA activation user will see a screen like below.

PWA DETAILS

App Details	
Short Name Demo PWA	Android Theme Color #5500FF
App Name My Awesome PWA Demo	Android Splash Screen Background Color #FFFFFF
Meta Title Demo Meta Title	iOS Splash Screen Background Color #5500FF
